CALIFORNIA-GROWN ROSES

Every rose listed in this catalog is strictly No. 1 two-year field California grown, and all Hybrid Tea Roses will bloom the First Year. No better roses can be bought at any price.

We advise planting Dormant Roses between the dates of March 10th and April 15th, and planting dormant bushes in preference to potted bushes. When planting early, however, we have potted roses and recommend them for late planting.

For a small additional cost, we will plan and plant your rose garden for you.

HYBRID TEA ROSES

2 Year Field Grown Dormant—45c Each. $4.90 per Dozen
2 Year Field Grown Potted—60c Each. $6.00 per Dozen
These Roses are Strictly No. 1 and will Bloom the First Year.

LANDSCAPE PLAN SERVICE

It requires special training and experience to properly place evergreens, shrubs, shade trees, and flower gardens on your home grounds. Their color arrangement, their habit of growth, whether or not they will thrive on the shady or the sunny areas—all these factors must be considered. Let us plan your home grounds so there is color and beauty throughout the season.

It costs no more to plant by plan. Phone us and ask about this service.
